(BY TELEGRAPH TO THE OREGONIAN.)

Illinois Campaign Opened.

ROCK ISLAND, Ill., Sept. 17.—Jno. B. Hawley, assistant secretary of the treasury made the opening speech of the campaign in behalf of the Republicans this evening, discussing the financial question from the standpoint of actual knowledge acquired in the treasury department. He took advanced hard money grounds.

Massachusetts Republican Convention.

WORCESTER, Sept. 18.—The Massachusetts Republican convention assembled this morning. Governor Claflin was chosen permanent chairman. A resolution was offered and referred to the committee on resolutions, demanding that corrupt, incompetent and unnecessary officers and employes entrenched in the Boston custom house and other public offices of the state, shall at once be discharged, and that such places as the public good requires, be filled with honest, God-fearing, capable, law-abiding citizens.

An informal ballot stood—Talbot 851, Long 26, Benj. F. Butler received two votes on the informal ballot that gave Talbot 851 and when Butler's name was read it was received with hisses and laughter. On motion of Nichol the informal ballot was made formal, and Hon. Thomas Talbot declared nominated for governor with but one dissenting voice.

Connecticut Democratic Platform.

NEW HAVEN, Sept. 17.—The platform adopted by the democratic convention renews the pledges of democratic principles, demands civil supremacy over the military, equal rights, observance of the constitution by the federal government, rigid economy, persistent investigation of the frauds practiced by rings and office holders, condemns the plot by which the present executive was fraudulently seated; demands public lands for settlers, abolition of all subsidies. That the constitution of the United States recognizes gold and silver as standard money of the union, and this standard is the most stable basis for the commercial necessities of the world. The Democratic party of the union has never failed to recognize and support this essential principle. The great and only war and Republican financial fraud and corruption brought an irredeemable currency. The convention thanked the Democratic house for striving to reduce expenses, and asks the legislature to modify the high price laws, to aid the laborer by legislation, and invites all who favor coalition, disconnected from politics, to act with the Democracy, and invites all laborers to act with the Democrats, their natural friends.

Among the dead are two volunteer physicians—Drs. John D. Hicks and J. S. Bankson. The supply of coffins is running very low, and it is with great difficulty that anything but rough coffin shaped boxes can be obtained, even by people in good circumstances.

MASSACHUSETTS DEMOCRATIC CONVENTION.

Butler Finally Nominated.

(Continuation of Yesterday's Report.)

Roberts's declaration that the Butlerites proposed to retain the hall was answered by passionate peal of applause. When the state central committee fully realized that the Butler faction had control of Mechanics' hall they appointed a committee to see what could be done towards procuring a hall. They called upon Mayor Pratt about 10 o'clock.

In his speech Spofford alluded to the wants of the laboring class, and denounced bond holding and banking monopolies. He was heartily applauded.

At the conclusion of Spofford's speech John L. Bates, of Springfield, nominated Gen. B. F. Butler for governor, amid cheers and great excitement, the delegates all rising. Cook, of Boston, seconded the nomination.

At this point, amid most intense excitement, John C. Galvin took the floor and announced the action of the committee, being repeatedly interrupted by hisses, groans and cries of "Put him out." The speaker asked how in the name of God any Democrat could nominate Butler? He had opposed every Democratic principle for 15 years. When the speaker said it was proposed to put him in the field as presidential candidate, there were cries of "Yes, yes." Three groans were given for the speaker at the conclusion of his speech.

A committee on resolutions was appointed consisting of a delegate from each congressional district.

Cook said it would take some time for the committee to draft the resolutions to suit the convention, and moved a recess, which was taken till 2 P. M.

The convention reassembled at 2. P. M. Butler's nomination was enthusiastically received.

THE PLATFORM

declares the principles of Democracy and condemns and promises to reform the state government's extravagance.

Resolved, That with exceeding shame and sorrow we have seen a president, elected by the votes of the majority of the people at an election held in accordance with the provisions of the constitution set aside. Our grief has not lessened because this unconstitutional wrong was done by the aid of the unconstitutional commission which found it impossible, by a party majority, to refuse evidence of fraud in the electoral votes in order to consummate the act. We therefore unhesitatingly declare that no man ought to be permitted to hold office who is tainted with fraud and corruption and if even he come without rebuke by the people we fear the perpetuity of republican institutions.

Resolved, That we protest against the longer existence of one party in power in the nation, and especially in this commonwealth, as tending to corruption and affording opportunity to temporary administrations and population and profusion of salaries and officers heretofore unknown.

The following state ticket was nominated: For governor, John T. Arnold; secretary of state, Chas. M. Strauss; attorney general, Leander Gushing; auditor, J. E. O'Reilly; treasurer, D. N. Skillings.

Clallam county Republicans will hold their convention at Kalama on the 24th, at 1 P. M.

LETTER FROM THE CAPITOL.

THE NEW SENATOR—DOUBTS EXPRESSED OF HIS ELECTION ON THE SEPARATE BALLOT—THE TWO HOUSES FAIRLY AT WORK—A "FLOODGATE" OF BILLS OPENED—PORTLAND'S NEW CHARTER—DANGER OF TOO MUCH LAW.

(FROM OUR REGULAR CORRESPONDENT.)

SALEM, Sept. 19, 1878.

The *senatorial blanks* of being an Oregon legislator, the right to cast a vote for U. S. senator was exercised yesterday, and the result has already been laid before the public. Mr. Slater is elected, for even if the two houses should on assembling in joint convention take the view that is held by some persons, that it requires a majority of the members elected to each house to chose a senator on the separate ballot, the work will be easily done on the joint ballot at noon to day and the result made certain, but as the next senate is likely to be Democratic, and there seems to be in the law of congress good reason for the conclusion that on the separate ballot all that is necessary to elect is a majority of a quorum we expect that he who would enter into a contest with Mr. Slater on the ground that he was not legally chosen United States senator yesterday would have his trouble for his pains. The Democrats seem now to have become all Slater men, those who opposed him, acquiescing in his election with very considerable unanimity. The circulation to some extent among the members of the report that Mitchell had been nominated by the Republicans, though wholly without foundation, had some tendency to consolidate the Democracy in the caucus yesterday morning, and the work of nominating Slater was quickly and quietly done. Very great things are expected of the new senator, especially by his friends in Eastern Oregon, and as there is much wanted by that section which he will hardly be able to accomplish, he will probably be less popular when he doffs the senatorial toga than he is now. "The opening of the Columbia" is the burden of the Eastern Oregon members' complaint, and should Mr. Slater fail to secure such legislation as will bring about this result, his six years as senator will close his official career in his locality. That he may perform this great work is the wish of the people of the whole state, but the common business sense which he has the reputation of possessing will teach him that, should those who have the ability to establish a competing line of transportation be so restricted and hampered that the investment of the enormous amount of capital required in that work would be a great risk, if not a reckless enterprise, the opening of this great river will be indefinitely postponed and the fertile plains of Eastern Oregon be for years as much locked up as now.

The election of a senator having been accomplished, the two houses are now seemingly intent on getting down to business, and propositions, bills and notices of bills are being presented in great volume. Of course a great many of these measures will be brought forward, discussed and then dropped, but it seems that a good many changes are likely to be made in the laws of the state. Almost every member has some measure which he thinks would be evidence of his statesmanship if he can get it into the statute book.

The subjects to which a majority of the bills of a general character refer are assessment, taxation, swamp and other state land, the school funds and their apportionment, retrenchment in the state department, etc.

The number of bills, legal in their nature, are great, and the people of some particular sections may be abruptly surprised some morning to wake up and find that they are under a set of laws which have been passed without a knowledge on their part that they were even contemplated and without any opportunity for those who are most interested to form or express an opinion as to the expediency of such legislation. For instance, a member from Multnomah remarked to your correspondent last night, in reference to the new city charter for Portland, that he did not believe there was one man in ten in that city who knew that such a measure was to be proposed. Members who presume that the people will allow these things to be done in a corner and the authors go without rebuke, will find that they have cut off their own political heads. Over 100 bills have been introduced in the two houses, and it is impossible to give the public a knowledge of the details of all of them through the press, but every one of them affects at least a portion of the people. There are, however, many cautious men in both senate and house, and we hope but little ill-advised legislation will get through and into the form of law.

The delegation from Multnomah county is quite as busy as any other, and they are quite influential and will make their mark on the work done, even if they are of a political faith of which the adherents are in the minority. The new charter bill for Portland is in their hands, as is also the petition of a large number of taxpayers who ask for some material changes of the bill from its present shape.

The protection of the salmon interests is one subject which demands the attention of the legislature, and as the members appear to be in favor of the means thought best to secure that protection, we apprehend that no strong opposition will be developed to the passage of a law concurrent with the act passed by the Washington territory legislature on this subject.

The anti-Chinese feeling is strong and is not confined to either party. There is a probability that strong measures will be adopted to check the evils growing out of Mongolian immigration.

If the bills now before the two houses on the subject of a game and fish law should all pass, all kinds of game will be amply protected, and in a few years the forests, plains and streams of the state will swarm with the feathered, finny and hairy tribes.

The correction of the abuses existing under the present law on the subject of assessment and taxation is being duly considered, and if a solution of the difficulty is obtained, the work will be received by the people as one of the best measures wrought out.

The jokes about the senatorial contest are a little old, but the authorship of one of them, credited by us to Nesmith the other day, is claimed by Turner, of Pendleton. It was the one about exhumed and aged candidates.

Mr. Hewitt believes our reference to H. B. 4 was not based on a proper knowledge of its constitutionality, and while we are not inclined to argue the question here, we will give the bill in full, so that the reader who has even a slight knowledge of law can make up a decision upon it. The bill says:

Every grant or conveyance of lands, or any interest therein, shall be void, if at the time of the execution thereof such lands shall be in the actual possession of another claiming adversely to the grantor.

Inasmuch as conveyances of land are being made, by persons out of possession, to citizens of other states, for the purpose of giving the federal courts jurisdiction of actions to recover possession of the same, thus largely increasing the costs of defending the title to persons holding in good faith, this act shall take effect and be in force from and after its approval by the governor.

The bill certainly deprives a party of the constitutional right to dispose of his own property, and quite as certainly does it abridge the rights of citizens of another state to purchase and own property in this state. Furthermore if jurisdiction is given the federal courts it is so by act of congress, and a state law cannot take it away.

The O. S. A. Society officials are making unusually extensive preparations for the state fair this year, and should good weather prevail there is no doubt of a great success.

The Lewis County Agricultural Association holds its second annual exhibition at the courthouse and grounds at Chehalis on Wednesday, Thursday and Friday, October the 2d, 3d and 4th. Hon. J. K. Long will deliver the annual address on Thursday, at 2 o'clock P. M.

PACIFIC COAST NEWS.

CALIFORNIA.

The Missing Thousands.

SAN FRANCISCO, Sept. 17.—This afternoon there was a meeting of the finance committee for the purpose of making some inquiries as to the whereabouts of the protested taxes received by the late Alexander Austin when tax collector and now due the city. The meeting was held in pursuance of a resolution passed by the board of supervisors last evening. Louis McLane, president of the Nevada Bank, the first witness, testified that Austin had only a small private account, but he did not know that protested tax moneys formed any portion of it. Wm. Sharon did not know whether Austin had money deposited in the Bank of California. Thomas Brown, cashier of the Bank of California, said that at the time of the failure Austin had certificates of deposit to the amount of $55,000, all of which were paid during 1875 and 1876. Joseph Austin, brother of the late Alexander, testified that he did not know anything about this money. Nothing had been left by his brother, and he had been told nothing regarding the protested tax. Jennings & Cox, partner of the late Mr. Austin, stated that at the time of Mr. Austin's death he was indebted to the firm in the sum of $20,000. Mr. Austin, as a partner, deposited his board seat, valued at $25,000, and the next day deposited $10,000. In all he paid in $25,000 cash as his interest in the firm, besides a seat in the board.

Gustave Mahe's Suicide.

SAN FRANCISCO, Sept. 18.—A number of rumors are afloat as to the cause of Gustave Mahe's suicide. It is reported that notwithstanding the recent favorable report of the commissioners as to the condition of the bank, considerable dissatisfaction and distrust exists among depositors as to the status of loans made on suburban property. It is understood that the commissioners have made an examination of the property in question, but have not yet reported on it. Only real estate is found to be worth practically what it was rated at by the bank, but there is an impression that some of the outside property has largely depreciated. This is one loan of $700,000 on property near San Miguel be onging to the estate of the late F. L. A. Pioche on which no interest has been paid for the last five years, and it is believed that the property has depreciated to less than half the amount of the loan. It is further said that the depositors had concluded to call a meeting and obtain a full statement from the management of the bank concerning these matters; that, as a matter of courtesy, deceased was requested to call such a meeting; that he failed to do so, and in consequence depositors called a meeting themselves for next Saturday, and that it was proposed at the meeting to demand the removal of deceased from the directory. It is believed that the prospect of removal from the position, which he has held for the last 18 years, influences Mahe to take this life.

More about the French Bank.

The doors of the French Savings Bank were closed this morning and no money was received or paid out. A line of depositors stand on side, but are refused admittance. The cashier and assistants are busy over the accounts. Two of the directors, who were on hand, stated that they knew nothing to account for the suicide of Mahe, and but little about the affairs of the bank, but that a meeting would be held this afternoon, at which some course of action would be agreed upon. At the office of the bank commissioners some information was obtained tending to throw more light on affairs. Commissioner Coleman states that at the time the recent letter from the commissioners was made public to the effect that the bank was in a sound condition, their investigations pointed to that conclusion. The letter was given to allay the fears of depositors. Since that some matters have come to light to make the showing less favorable. It was ascertained that in one case a loan of $45,000 had been made and secured on real estate which was already encumbered by a mortgage in excess of its value. Other assets to the amount of $168,000 were found to be in an unsatisfactory condition. Commissioner Coleman called Mahe's attention to these facts, and reproached him with a lack of candor in his presentation of affairs. This seemed to affect Mahe greatly, and the want of confidence expressed by Mr. Coleman moved him to tears. He made over real estate yesterday to cover the $45,000 loan, and gave personal guarantee to secure $168,000 cash. It is considered possible that other such cases may be discovered in further digging into the affairs of the bank, and the impression is that the suicide of Mahe is due to these complications. The commissioners express the opinion that with guarantees given by the deceased president the bank can work its way out and depositors suffer no loss, and incline to the opinion that this will be the best course to pursue, as the bank is a purely mutual institution and there are no stockholders to fall back upon.

The Missing Tax Fund.

The finance committee of the board of supervisors this morning examined the books of J. M. Walker & Co., of which ex-tax collector Austin was a member, to ascertain how Austin drew the city's money. The great bulk of the amount of $250,000 was drawn out by Austin's checks, ranking mostly in the hundreds, in every case payable to bearer, leaving no clue to the disposal of the funds. The committee is as much in the dark as ever.

White's Trial.

VISALIA, Sept. 17.—W. J. White, charged with killing Dr. Mehring, was brought up for examination this morning. District Attorney Edwards appeared for the prosecution and P. D. Wigginton for the defense. Adjournment was taken until 2 o'clock to enable Wigginton to consult with his client and look into the matter. The court room was thronged. On reassembling at 2 o'clock Mr. Wiggin on applied to have the case sent before some other justice of the peace other than Justice McNamara. The district attorney then filed a motion to the effect that as Justice McNamara was an important witness for the people, he could not possibly hear the case. Proceedings were then adjourned to go before the county judge, who has fixed the examination for 10 o'clock to-morrow.

Count Andrassy's Policy.

VIENNA, Sept. 18.—*Pesther Lloyds*, heretofore a loyal supporter of Count Andrassy's, raises its voice against the reported Austro-Servian-Montenegrin alliance, which that journal declared would be a slap at the face of Hungary, and it takes the opportunity of this reputed intention on his part to repudiate Count Andrassy's Bosnian policy. The same paper prints an article written by Dr. Falk, a member of the Reichrath, and heretofore an ardent admirer and apologist of Count Andrassy, in which he says that an alliance with Slavonic principalities is an insult to Hungary. There are other and increasing signs of Hungarian discontent at the present situation of affairs. Another account says that Risties Servian premier offered the co-operation of Servia but it was declined, and the Vienna cabinet have given it to be understood that they never entertained an idea of accepting such an arrangement.

Among the very testimonials that Bishop Morris has received concerning Prof. Hill, are the following

YALE COLLEGE, April 26, 1878.

This may certify that Mr. Joseph W. Hill has had ample experience in teaching, is mature in years, and is well fitted to take charge of a High School. He is a man of excellent character, and cannot fail to give satisfaction as a teacher.

(Signed) E. FORBES, Pres.

THE SELLECK SCHOOL, NORWALK, Conn., Jan. 16, 1878.

I have long known Mr. Joseph W. Hill. He was my pupil for years and his success since taught for me. To his ability and worth I unhesitatingly testify. The Daily Oregonian.

THURSDAY MORNING SEPT 19 1878

THE NEW SENATOR'S ANTECEDENTS.

Mr Slater came to Oregon a free soil Whig In natural constitution of mind he was opposed to the Democratic party and this opposition was strengthened by his early training and associations But he found few political kindred spirits in Oregon and but a handful in Benton county His mind was not of a very robust and independent order but he had some rather quick parts which enabled him soon to see that there was no hope for political advancement through adherence to ideas which could not muster numbers sufficient to give a party a standing and a name Thus beset Mr Slater began to yield to the force of popular opinion around him Democracy he first endured then pitied, then embraced He won the friendship of J C Avery long a leading citizen and prominent Democrat of Benton Mr Avery and Judge Williams completed Mr Slater's conversion to Democracy Confirmed in the faith by receiving the appointment of clerk of the court at the hands of Judge Williams, he has remained generally faithful to his new vows, though often taunted in years past with his free soil or abolition antecedents During the war he prudently kept silence since his party had no favors to bestow He was no more a man to lead a forlorn hope of Democracy than he was to remain a sturdy free soil Whig in the midst of an overpowering adverse public sentiment But when the close of the war gave opportunity to the Democracy to renew its strength and honors were once more in sight Mr Slater again appeared at the front, and has been at the front ever since True, he has not been much in any man's way and has repeatedly been pushed aside to make room for others who had a larger hold on the heart of their party. But all this he has borne with as much patience and good nature as any one so situated could be expected to evince He has always been offering himself, yet it has always been easy to crowd him off As witty Charles the Second said of Godolphin he is never in the way nor out of the way He owes his fortune now to the favor of locality A circumstance raised by another as a political trick to serve a selfish purpose turns to the advantage of Mr Slater Those appeals made by Mr Mitchell to Eastern Oregon in the hope of securing his own election, hollow as they are, gave Mr Slater's friends their opportunity Otherwise Mr Slater had been seduced in vain from free soil principles in his youth and like patience on a monument would still be waiting and taking his chances for the next occasion

THE RING CHARTER

This instrument proposes to reserve to the common council the big job in the erection of water works and gas works by providing specially in section 38 that the council shall have power to furnish the city with water, to regulate the sale and distribution thereof, and to erect or construct water works and reservoirs within or without the limits of the city, and also to provide for lighting the streets with gas or other light, and to erect such works as may be necessary or convenient therefor A common council a majority of whose members are totally irresponsible in every respect, and who notoriously are mere instruments in the hands of trucking politicians by whom this ring charter is concerted and supported, should not be entrusted with any such power and opportunity The people do not want to see the city government converted wholly into a ring machine That is sufficiently its character now. Put the police wholly in the hands of the common council, and add the other large opportunities which the ring proposes to seize under this cunningly devised charter, and the politicians of a grasping faction will be able to consolidate here their now broken power, and gain once more a foothold to rule the state It is well known that their complaint against the present police organization is that they could not use it as they desired in the last election It declined the most earnest solicitations to "stand in," and neither entreaty nor threats could bring it to the support of a faction which had staked all on a single throw for a new lease of power A tractable police is now wanted by the ring which made its threats immediately after the election that it would punish what it chose to call the treachery of the police organization to its interests We shall see if the legislature will deliberately confer on the ring the power it seeks and convert the corporation of Portland into spoil for robbers to revel in

THE INDIAN SITUATION

Gen Howard has for some weeks been collecting bands of surrendering Indians at Mc Dermitt and the whole of them numbering in the aggregate nearly one thousand, are now being transferred to Camp Harney They are held as prisoners of war to await the pleasure of the government It should be almost unnecessary to say that these Indians ought by all means be transferred to some distant locality The country is now cleared of all bands of Piutes which have been engaged in hostilities Remove these Indians, now prisoners, and the whole of southeastern Oregon and the adjacent parts of Nevada and Idaho will forever remain undisturbed The Malheur reservation should be given up If the Indians heretofore belonging to that reservation be sent back, nothing can keep them there, they will start off again on a raiding expedition whenever they feel disposed and there will be a repetition of the scenes of the past summer throughout all the surrounding country. It is absolutely necessary for safety that they be removed to some distant place as the Modocs were, and now that the whole of them are prisoners the job will be an easy one and should be done at once We are advised that **Gen. Howard has recommended that they be taken to the Indian territory or some other distant locality, and it may be hoped that his recommendation will have weight with the authorities at Washington** It should be seconded by our representatives in congress We call attention to the desirability of such thorough action as will assure the country that we have had the last of this trouble

The names of thirty eight Indians of the Umatilla and Columbia river bands who joined the hostiles and participated in the attacks upon our citizens in Umatilla county have been ascertained, and many of them are known That they are lurking about the Umatilla reservation or in the vicinity of the Columbia river is not doubted The civil authorities should be on the alert for them It is positively necessary for the future peace of that vicinity that these renegades be taken and punished Every possible facility will be furnished by the military, but it will devolve on the civil authorities to make the arrests, because there is a law which forbids the use of the military as a posse to execute Indians he must hold them under military law and cannot give them up to the authorities of the state for trial and punishment This may serve for answer or explanation to the complaint made at Pendle on that the military are not arresting the offending Indians and giving them up to the sheriff Surely the sheriff ought to be able to ascertain who those Indians are and he has a right to take them on the reservation or wherever found

Measures should also be taken without delay to effect a permanent settlement with the Indians of Moses band on the upper Columbia. The territory which Moses wishes to retain ought to be conceded to him He has maintained the peace under very trying circumstances heretofore, and has always been true to his promises His conduct in the past gives assurance therefore that if he be confirmed in possession of the lands he occupies he will remain a firm friend of the whites, keep the peace and exercise a wholesome influence over the Indians around him It is the more necessary that this concession be made at once, because there has always been some uneasiness among those Indians and because it is certain that any attemp to remove them to a new locality will be resisted, and the result will be war Those lands could never be of much value to the whites Besides if this arrangement be consummated, Homely will go from the Umatilla reservation to this locality, and two thirds of the Indians of that reservation will most willingly attend him This would go far toward settling all questions connected with the Umatilla reservation Now is the time to put all these matters in proper shape, so that the country may experience no more trouble Remove the Indian prisoners to a distant place punish the unfaithful Umatillas and settle definitely with Moses and we shall not have further disturbance

There has been quite a row in the Democratic convention in Massachusetts over the nomination of Butler for governor The state central committee made an order postponing the convention till the 26th but the adherents of Butler disregarded it and rushed their programme through It now remains to be seen what the respectable portion of the Democratic party will do

TIERRA COSTA WORKS.—Mr C H. Myers, of the Tierra Costa Works at Oregon City, has left at this office specimens of pottery which are very handsome. Operations are being pushed forward and a great deal of useful work is being turned out.

WRIT OF HABEAS CORPUS.—In the matter of the application for writ of habeas corpus of Geo. Lamson and John Galvin, before Judge Shattuck yesterday, the writ was ordered returnable on the 21st of September at 9 o'clock A. M. GOLD EXCITEMENT.

A few days ago mention was made in this paper of the reported discovery of gold in Skohomish county, Washington territory. Quite a number of Portlanders we learn have gone over to prospect at these recent discoveries. The following is taken from the *Dispatch* of Sept. 16th, relative to the precious metal fever:

The gold excitement is still on the increase. Another party men left this city on the *Fanny Lake*, some of them were fully equipped, carrying picks, shovels, pans, bacon, flour and tobacco, and others went without baggage, intending simply to locate claims and return for their outfits if the diggings are such as reported. Among the number are many experienced miners, and no doubt the mines will be thoroughly prospected.

Samples of grain gold, said to have been taken from the mines in Snohomish county, were shown in this city yesterday. In the afternoon a number of persons started for the mines in skiffs and canoes, taking their outfits with them. If the mines are half as rich as represented, a great many people will go to them on Friday, when the *Fanny Lake* makes her second trip.

An account of the state of affairs at Snohomish city is worse under date of Sept. 13th, by W. M. Bell, Esq., runs: "Great excitement prevails here in regard to a report that very rich diggings have been struck at some point on the Sultan river. The merchants and blacksmiths, with a large number of the population of the town, have gone up to the place, among whom are E. C. Ferguson and Hart. The town is almost deserted. Fair morning Barnett & Cotton are reported to have found paying claims, from which they have taken $60 per day."

The sailing is said to have been accidental. A party named Long, accompanied by his son, were out on a hunt. One night they camped on what appeared to be a sandbar in the dry bed of a river. The next morning they discovered indications of gold, and during the day washed out $25 with the utensils at hand. These men carried the news to Snohomish City, and a large number of men went up as soon as the latter. There were fifty claims staked on Friday last. The news spread to the logging camps, and many of them were deserted. Others on the *Fanny Lake* came down the river on Saturday, and the entire male population of the town went off on their way to the mines. The mines are from forty to fifty miles from the city. Steamers can ascend the river to within twelve miles, and the remainder of the distance can be traveled by team.

Parties have been working in the vicinity of the mines for years, making from $2 to $5 per day. Gold is known to exist along the Sultan river, and those who have been prospecting there are not surprised at the present developments. Still it is possible that the gold findings, as reported, are only occasional deposits in the mines, and we will soon be able to give something more definite.

BRIEF NOTES.

No state circuit court yesterday.

Decent quantities of grain pouring in.

Daily freight trains on the east side road.

Eastern Oregon carried off the prize this time.

Nights are cool and inclined to be a little foggy.

The Mausoleum of Stark street has commenced.

Work on the new Cathedral is getting pretty well up.

The schoolhouse building is about completed—that is, the outside work.

Wanted—Rain, and give us all a good chance to improve crops!

Councilman Simon has been up to Baker City for the past two weeks.

Now the solons at Salem will come down to regular work, as the senatorial contest is over.

The brick sidewalk around the block on which the postoffice building stands is worn into holes by the constant travel.

Mr. James Guild, the gentlemanly telegraphic operator for the O. & N. Co. in this city, returned on the Sound a few days ago.

The superintendent of streets is making himself very numerous, but there are yet a good many dilapidated sidewalks which require attention.

The great number of telegraphic and telephonic wires which are stretched about the city impart quite a metropolitan air to Portland. They look like business.

If you have any curiosity to see how utterly filthy the Chinese can live, just step around to the corner of Second and Alder and take a look at the old demolished rookeries. Phew! what a stench!

BOARD OF TRADE.

PROCEEDINGS OF A MEETING HELD LAST EVENING.

The Board of Trade met at its rooms last evening, Mr Corbett president, being in the chair and the secretary and about thirty members present.

The minutes of the last meeting were read and approved.

A communication was received from W. W. Parker, Esq., mayor of Astoria, stating that a number of bar pilots had left the service of the tug owners and had fitted up a sloop, with which they desire to "lay off" the bar and supply vessels with pilots, and asking what were their rights

The secretary was instructed to send Mr Parker a copy of the bill relating to the matter which has recently been introduced into the legislature.

Mr. Corbett presented the name of Mr W S Wilcox for membership and Mr. Failing presented the name of Mr. W Jackson. Both candidates were elected members

The committee on legislation presented two bills—one relating to attachments and another to assignments—which had been drafted by members of the legislature and sent to the board with the request that they make such suggestions in relation to them as would render them more efficient and equitable

After discussing the details of the bills at considerable length, it was moved—

That the secretary of the board be directed to ask of the delegation in the legislature to amend the attachment law that it shall apply to the benefit of all applying creditors, and that debts not due may be proved under any attachment issued, and receive their pro rata dividend."

The secretary was also ordered to communicate with the author of the assignment bill presented, thanking him for favors and recommending some changes which were suggested by members during the discussion

The navigation committee presented three bills to be presented to the legislature one relating to the appointment of a harbor master at this port, another for the protection of harbors, and another to prevent sawmill owners and other parties from obstructing river channels.

On motion, the bills were laid on the table until the next meeting.

A motion was adopted asking the legislature to memorialize congress to adopt and carry out the measures suggested by the war department for the improvement of the Columbia river from the Willamette to the sea

It was also moved and carried that a committee of three, with the president and secretary, be appointed to draw up, for the consideration of the legislature, such suggestions as may express the sense of the board in relation to a bill to provide for the collection of debts. As such committee the president appointed Messrs. Francis, McCraken and Failing

The board then adjourned to meet on next Wednesday evening.

TO TRUTH SEEKERS.

At the request of my friends I am induced to say that I attended the seance given by Dr and Mrs. McLennan at Dr. Hyde's room, 141 First street, last evening. I have no interest or desire to exaggerate or overpaint the manifestations there given and witnessed by quite a respectable assemblage of, in most instances, entire strangers to me.

Soon after entering the room Mrs McLennan, a stranger to me, took a seat at the stand and at once wrote "My dear sir, I am glad to meet you here to-night. Lizzie and the children are all well, and expect you home Sunday. Your brother in spirit, Elizabeth Welsh." I will here state that "Lizzie" is a family or pet name by which my wife has been known by intimate friends from girlhood, and Elizabeth Welsh is the name of her mother, and that I have been very uneasy, having heard by telegram dated 12th, that my wife was quite sick. In addition as a test to me, the names of my father and sister were given and also the name of Dr. McMichael, a spirit friend whose name will readily be recognized by spiritualists of Grand Ronde valley. A large number of names and communications were read, each of which was recognized by persons in the audience. After this, the gas being extinguished, Dr. McLennan sitting in the centre and surrounded by about twenty persons, manifestations were given and communications received, that to be realized, would require the presence of the investigator. E. S. McCOMAS.

The excellent photo work that Davidson Brothers are turning out proves that while they have much the lowest prices, they do not intend the quality of their pictures to be excelled. They make cards for $1 50, and cabinets for $3 per dozen.

OREGON.

Eastern Oregon wants rain.

The people of La Grande have discovered that Chinamen will steal chickens.

Mrs. Dr. Sawtelle, formerly of this state, is publishing a health journal in California.

Hall Johnson, of Lafayette, has the contract for carrying the mail between that town and Salem.

John Whitney has been retried at Salem for the murder of Roberts near Silverton, and bound over to await the action of the grand jury.

A man by the name of Z. Jones accidentally shot himself last Saturday, at a sawmill about one mile from Philomath, Benton county. The bullet struck him in the wrist, passed up the arm and lodged in the shoulder, making a very painful and dangerous wound.

The fire which occurred at La Grande, did not, as we stated, destroy Snodgrass & Miner's store. The following is the loss by the fire: Cullen & Wellman, stable and contents, $300; W. J. Snodgrass, damage to store, $300; Cullen & Wellman, new lumber, shingles, $100; Snodgrass & Miner, damage to goods, etc., $300.

A correspondent writing to the *Gazette* from Cove, Union county, says: "The fruit yield in this section this year is not as abundant as it has been heretofore, but what there is of the crop is delicious, and sells very readily at good prices. Apples sell at from 5 cents to 9 cents per pound, and plums from 10 cents to 12½ cents per pound.

Last Monday Wang-te-luin, one of the Columbias, who was known to the Cayuse and Umatilla Indians as having been engaged in the late Indian war, when told that he must deliver himself up to the whites, coolly drew a pistol and blew the top of his head off and took a trip to the happy hunting grounds.

Al. Benson and a Mr. Hall, who were arrested on one of the steamers on the Sound, as deserters of the U. S. army, have received discharges from the military authorities at Vancouver, after a thorough examination. There was no doubt but they had deserted the service of Uncle Sam, but for good conduct while connected with the army, and gentlemanly deportment since that time, they were given honorable discharges.

DR. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produced disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhœa, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and respectfully familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient, personally, and will forward the proper medicines, or instruments, to any part of the country, with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION

Persons coming to Portland requiring medical treatment of the proper kind, we do desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on Front door.

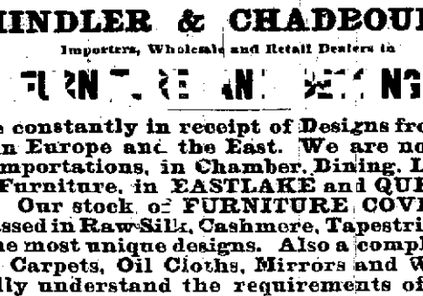
PERCHERON STOCK FOR SALE.



I WILL SELL THE FOLLOWING VALUABLE Breeding Animals:

PRIDE OF PERCHE or GEN. FLEURY, DOLL, WHITE ROSE, TEMPEST, these are all full blacks, JENNIE a fifteen sixteenth blood. Doll has been bred to "Arabian Boy," the other three to Gen. Fleury. All appear to be in foal, and have proven No. 1 brood mares.

JOSIE, a yearling filly by Gen. Fleury, dam Jennie. This filly will be enrolled in the forthcoming Percheron-Norman Stud Book, having three crosses from Percheron sires.

ELLA, a ¾ yearling filly, by Gen Fleury, dam Maggie.

The above seven horses are the most valuable breeding animals of this Stock ever offered for sale on this coast, and will be a valuable acquisition to any section they may be located in.

I would prefer to sell the lot together.

I will have part of the above number at the coming State Fair.

Also, "ARABIAN BOY," some Yearling Colts and Fillies, with the Shetland Ponies, and Sucking Shetland filly "Minnie."

It is 27 years since the Percheron stock was introduced in Ohio. The Secretary of the Ohio Board of Agriculture J. H. Klippart, Esq., publishes in his recent annual report, replies received from the various counties in the State, to the following questions: Have the Percheron horses been introduced in your county? Do they give general satisfaction? To the first 98 counties answer Yes. To the second 50 answer Yes, and 9 answered No. And from the same report the average prices of good geldings and mares for farm use were higher in Union county, where they were first imported, than any other county in the State. This certainly speaks well for the Percherons. Every horseman knows that a large well formed horse will always bring a good price in our market.
